

Mobile Real Estate ID Overview

Put Your Listing In The Buyer's Hands

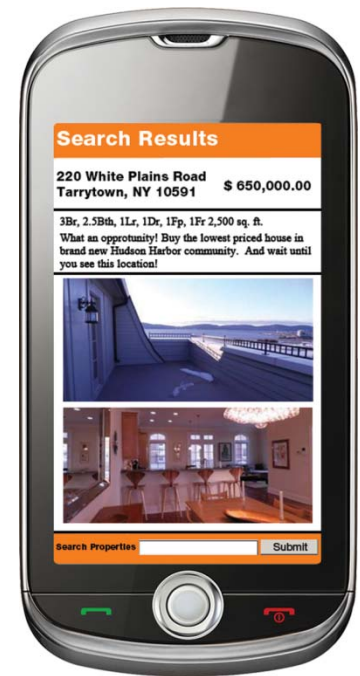

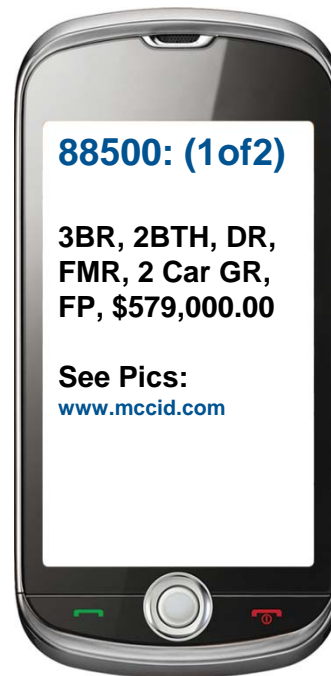

Mobile Real Estate ID

This cutting edge tool allows me to ensure that any potential buyer can access property information, pictures and contact me right from their mobile phone 24/7.

Mobile Real Estate ID:

- **Allows potential to text in and automatically receive an instant response with property information, pictures and my contact information.**
- **Instantly sends me a lead with that buyer's contact information so I can follow up.**
- **Enhances every advertisement in our marketing plan**

A Mobile ID For Your Home

Once we assign a unique Mobile ID to your home, Buyers will be able to send a text message to the number 88500 with that Mobile ID in the message. When they do, they will get an instant response with the property information, pictures and my contact information. They can even request an immediate phone call.

Leads & My Online Portal

As the Agent, I will receive a lead every time a potential buyer requests information on your home. I will be able to follow up instantly and track them all online.
